NUMBER 17

Sodbusters Defeat Rotarians In Donkey Baseball

Apparently having a greater fund of donkey psychology than was possessed by the Rotarians on Tuesday evening at the local ball park, the Sodbusters, captained by Ern Nilsson defeated the Rotarian Rattlers, captained by Arnold Zabriskie, to the tune of 6-4. It was a great funfest. We were going to say bal game, but that would be untrue, there wasn't any ball about it, only the howling the players done to the jacks, and these sweet tempered little animals couldn't understand it at all.

The Rotarians came to bat first, but went down in one two three order when the burros refused to let the batters have a ride. They were thrown off twice each and this counted as out. The Sodbusters fared better and managed to get a run in before their side was retired, and so it went. Turner for the Sodbusters and Zabriskie for the Rotarians were the pitchers and delivered a wonderful game. The fielders were on their mounts sometimes, on their heads sometimes, and the rest of the time trying to persuade the burro to come with them to get the ball when they departed to field a long fly. Some of the physical positions of the fielders in making a stop defies description and would almost make one doubt a snap shot, as with one hand on the halter sank of the donk, they spread themselves over great areas of terrain after the rolling ball.

The base donkeys were very much stationary. Frank Taylor got Popeye out of the second base circle once and then had to pick him up and lift him back in so rivetted was the animal to the second base circle. Dr. Hal on first had a hard time getting his donk to accompany him after the ball. He couldn't ride him, and he could not lead him, and finally in consternation Doc stretched himself over the jack for a well earned rest. Wimpy, the burro in right field was about the best behaved one of the lot, and he would go wherever you wanted him, provided you didn't try to hurry him too much, and he wanted to go that way. Bill Fairbanks got along fine with him, scratching his hip, and actually getting the animal into high gear two or three times. Bert Nilsson was doing fine on Wimpy too, but all at once Wimpy put on his hydraulic brakes and Bert, lacking such dependable braking power picked himself up out of the dust, somewhat chagrined, but other wise unhurt.

A. W. Kirkham was umpire, and received considerable assistance from the man with the loudspeaker, who kept the crowd interested in the plays, and seemed to know how to talk to the burros.

A great many of the batters were dumped trying to mount the mules, and Satan very much resented being ridden, although if a base runner could get him on the way he was a good one to make the circle. Rags was the best of the lot for the batters, and brought in more runs than any of them. He hucked a little when the batter was getting on, but he could really be coaxed into breaking the two mile speed limit when he got under way, and once or twice between third and home broke into a half-hearted canter.

WEDDING BELLS

KING — PASSEY

The wedding of Miss LaPriel Passey, senior stenographer in the Canadian Sugar Factories, Ltd., office, and Louis R. son of Mr. and Mrs. L. D. King of Raymond, was solemnized at the home of the groom's parents Saturday afternoon, July 11th at 2.30 p.m. with Bishop James H. Walker officiating.

Immediately after the ceremony the young couple left by car for Lethbridge and then by train to Calgary and Vancouver on a two weeks honeymoon trip. The car had the usual marriage signs and inscriptions on it with a pair or two of old shoes etc., to add to the interest of the occasion.

On their return the groom will continue with his father in the operation of King Motors. The young couple have a host of friends who wish them well in their matrimonial journey.

SMITH — COOMBS

Irene Alice, daughter of Mr. and Mrs. B. J. Coombs, and Sidney Herbert Smith, eldest son of Mr. and Mrs. S. B. Smith both of Raymond were married in the Cardston Temple Friday afternoon, with Pres. Edw. J. Wood officiating. Relatives of the young couple being present and they received congratulations of their many friends following the ceremony.

The young couple will make their home in Raymond and the Recorder joins with their many friends in wishing them much happiness and success in their married life.

S. E. Low, M.L.A., Stirling, was a Raymond visitor last Saturday.

Ehlert and Son were busy last week and this stuccoing the W. S. Rouse home.

J. O. Hicken has raised his horse about three feet, evidently preparing to put in a basement.

The players on the opposing teams were as follows:

Sodbusters: Wilh Wilde, Orrin Turner, Ross Larson, Dave Powelson, Carey Ralph, Ern Nilsson, Jack Judd, Reg Cooper and Bert Nilsson.

Rotarians: Lee Brewerton, Arnold Zabriskie, Dr. Hall, F. R. Taylor, Tommy Roberts, Joe McLean, T. Geo. Wood, Heber Allen, S. I. May, Gordon Stone, Bill Fairbanks, Hamp Witbeck and Ira McBride.

Stiff necks, sore legs, hoarse voices and sore sides from laughter were the part of spectators and players alike following the hour and a half of continuous and spontaneous laughter.

The Rotary Club wish to thank all who assisted in making the introduction of Donkey Baseball into Raymond a success.

Probably before we leave this we should tell you the notorious names of the more notorious donkeys: 1st base, Clark Gable, 2nd base Popeye, the spinach eater, short stop, Skeezix, 3rd base Mac West, Wimpy, Trinidad and Napoleon in the field. The batters donks Rags, Satan, Lightning and Deacon. With all due respect to the players, the four legged donkeys were what made the game funny.

Funeral Services of James E. Fisher

Funeral services over the remains of James E. Fisher, old timer and highly respected citizen of Raymond, were held in the Stake House at 2 p.m. Sunday, with Bishop J. O. Hicken in charge. W. C. Stone conducted the choir and Roi Stone at the organ. A large crowd representing nearly all the town in Southern Alberta was present to show respect to the memory of their friend and brother. The beautiful profusion of flowers extended across the entire width of the hall. Seven grandsons of the deceased acted as pall-bearers, and grand daughters, assisted by members of the first Ward Relief Society carried the flowers.

The opening song "Oh My Father" was followed by prayer by Pres H. S. Allen, after which the choir sang "I Know That My Redeemer Lives".

Bishop J. O. Hicken spoke briefly, mentioning a number of letters of condolence and regret on the part of various people at not being able to be present. Because of the immigration laws, Niel Fisher of Missoula was unable to attend but all the rest of the children were present. He spoke of the splendid character of the deceased as a neighbor and as a Church member. Referred to his love for children, and stated that the morning following death, a little boy was found sitting on the corral gate at the Fisher home, and when asked why he was there replied he was waiting for brother Fisher to come so he could ride to the pasture with him. Deceased has expressed himself that he felt he was living on borrowed time, and hoped when he went he would go quickly.

Monte Scoville 6 year old grandson of deceased sang "That Silver Haired Grandpa of Mine", and Lee Brewerton, a son-in-law recited a poem written by the wife of the deceased describing the beauties of the next world.

Elder Arthur Dahl an intimate acquaintance of deceased since 1903 when they first met, eulogized the honesty and integrity of deceased and said that his religion and the proper rearing of his family were the foremost considerations of his life, and the splendid family of children he left was a testimony of the success he had achieved in this respect. In his estimation deceased was worthy of an exaltation in the celestial kingdom of God, and he urged his listeners to prepare as conscientiously as deceased had done if they expected to meet him in the eternities.

A Male Quartette by F. R. Taylor and Co. sang "The Long Day Closes".

H. F. Allen of the Stake Presidency was the next speaker, and he stated he felt keenly the death of Bro. Fisher. During his years as Bishop of the first Ward he and deceased had many interesting talks, and in these talks, he had discovered the deep interest deceased had in the work of his church, and the value he placed on his testimony of the Gospel. He rather disliked debt, and was a very happy man when he was able to pay the last dollar he owed and face the world free from this bondage. He read from the Doctrine and Covenants regarding the three degrees of Glory and explained the difference between them.

Ralph Laycock of Lethbridge rendered a Violin Selection.

Bishop Walker was the concluding speaker, and stated he had known deceased and the family since he came to Canada in 1903. A strong body and good health was the greatest prize that any man could receive from God, and this had been deceased's blessing, which he had passed on to children, and they to their children and many generations would benefit from this blessing enjoyed and cherished by James E. Fisher.

A mixed Quartette "Goin' Home" was sung by W. C. Stone and Co.

On Hicken thanked all for their assistance and kindness, and the benediction was pronounced by Stake Pres. T. Geo. Wood.

A large number of cars followed the remains to the cemetery where interment was made with Christensen Bros. in charge at the graveside.

Regular Rotary Meeting Held

WM. PARIS FONDLES DEER

Wm Paris local business man had the experience at Waterton the other day of having a small deer jump right into his lap as he sat on the shore of Lake Linnet.

It happened this way: With others Bill was sitting on the shore of the lake watching bathers in the lake. The lifeguard was out on the lake a short distance on a raft. The lifeguard picked up a small piece of board and started for the shore, Bill thinking of course he was going to take the board out of the water for safety sake. Apparently the guard had noticed the deer in the bush about 9 feet or so above Bill on a ledge and he heaved the board into the brush and out came Mr. Deer, landing in one leap in Bill's lap, ripping a long slit in his trousers, and then Bill and the deer, rolled about 15 feet down the slope, amidst a propensity of feet and legs.

When the rolling stopped and they were disentangled the deer took to the tall timbers, and Bill busied himself finding the protection of another pair of trousers, but outside of this was unhurt, after the unique experience of holding in his lap and arms a real live deer. This one ought to be good for Ripley.

PICTURE BUTTE BRIEFS

Mrs. Geo. Terry spent two days in town this week.

Mrs. Bill Jones is holidaying in Cardston.

Miss Maurine Orgill returned last week from a two weeks trip to Cardston.

Born to Mr. and Mrs. Dick Wayling a boy on Tuesday at St Michaels Hospital.

The Misses Eva Hawk and Nova O'Brien spent last week visiting in town.

The community swimming pool is the most popular sport in town these days.

Mrs. Elmo Christenson has moved to Picture Butte for the Summer.

Mr. and Mrs. Heber Jones of Cardston are recent arrivals in town, Heber securing a position at the factory.

Mr. and Mrs. Brownie Rolfsen are making their home for the present on popular Highway avenue.

Paul Dahl's young son and daughter have been spending their holidays at the Salmon home.

Miss Rose Marie Wood, Theodora Redd and Mrs. Ted Price were in town last week for a short time.

Mr and Mrs. Fritz Gehmlich, Mr. and Mrs. Jack Grey and Mr and Mrs. Clarence Bowden went picnicking at Park Lake on Sunday afternoon.

J. W. Evans and L. D. King were Sunday evening speakers at church. They were accompanied over by their wives.

Mr and Mrs. Ross Humphries Mrs. E. Benison, Mrs. Orgill, Mr. and Mrs. Ross Salmon and Mr. and Mrs. Jos. Lawley attended the annual picnic and trip to the Temple of the Lethbridge Stake High Priest on Wednesday last.

The regular meeting of the Raymond Rotary Outpost was held in the Second Ward Chapel, Monday evening, July 20th, with 13 members present. The holiday season being on quite a few of the members were out of town, and unable to attend. The 2nd Ward Primary officers prepared and served a very tasty and appetizing lunch, to which the Club members did full justice.

Pres. L. L. Pack conducted the first part of the meeting, and after some community singing, called on Secretary Frank Hall for a financial statement of the Club, showing a small credit balance, and then Pres. Lambert gave a report of the outstanding activities of the Club and some of their accomplishments during the past year. He then turned the gavel and reins of control over to the new Pres.

President elect Dr. G. W. Leech then announced the Executive and Committees for the coming year as follows:

President—Dr. G. W. Leech. Vice-Pres.—Dr. Frank Hall. Sec.-Treas.—M. Rayo Woolf. Committees, the first named in each case being Chairman: Community and Vocational Service—T. Geo. Wood, F. R. Taylor, Paul H. Redd, Jas. E. Meeks and C. R. Wing.

Program and Objectives—Geo. H. Brewerton, Wm. Stone, J. O. Hicken, R. W. Tollestrup. International Service and Rotary Education—S. B. Card, Roi Stone, Lee Brewerton and L. L. Pack.

Fellowship and Attendance—Harold McKean, Heber F. Allen, S. I. May and A. H. Zabriskie. Song Leader—Tommy Roberts.

The remainder of the time of the meeting was spent in arranging the details of the Donkey Ball game for Tuesday night.

The President announced that Chris Hansen of the Lethbridge Club would be invited as guest speaker of the next meeting to report the International Convention at Atlantic City, which he attended as delegate from the Lethbridge Club.

Dr. Weems is holidaying at the present time, and Dr. Leech is kept quite busy looking after the sick.

OLIVER BRICKER ACCIDENT VICTIM

Oliver Bricker, 27 years old was instantly killed Tuesday morning near Blackie, when he drove his truck directly into the path of train No. 538 as it came south from Calgary. Evidently he did not hear the signals of the train. He was badly smashed up about the head, and died half an hour after being admitted to the Hospital at Vulcan. (Driving the truck along the ditch at the side of the track loaded with wheat he speeded up to cross the track and drove squarely in front of the train.)

He was the son-in-law of Mr. and Mrs. L. McPhee, having married their daughter Vera about 2 years ago. She with her ten months old son survive to mourn the death of husband and father. Funeral services are being held today in Blackie, and Mrs. Bricker will return home with her parents to make her home here for the present at least. We extend our sympathies to the bereaved widow in her sorrow.

News Notes

There was quite an exodus of Raymond people to the Lethbridge Exhibition and Stampede Wednesday afternoon and evening.

A forest fire was burning in the Flathead country of Montana Wednesday and the smoke haze over the sun in the afternoon was very noticeable.

The town has had a crew out for the past two weeks poisoning weeds. The chemical solution certainly seems to have the desired effect.

Miss Charlotte Knight is home from her year's work at the University where she had a very successful year. She is looking well and is enjoying her holidays here.

Dr. and Mrs. Roy Kimball and family of Salt Lake City, Utah, accompanied by Stewart's father Will Card, returned from their motor trip Thursday afternoon, having covered near 3,000 miles while away. They report a lovely time and an enjoyable visit with relatives and friends while away.

Geo. Brown, supervisor of Safeways Stores, was a visitor here the first of the week.

The hot weather certainly brings garden stuff on rapidly, and beans and peas need picking nearly every day.

Chas. Snow, of St. George, brother of O. H. Snow, arrived in Raymond Wednesday evening for a visit with relatives and friends here.

The hog market is holding steady with hogs at \$8.50, select \$9, and butchers \$8 on the Calgary market. Beef is around \$4. to 4.50 for good stuff. Cream and eggs are both pretty good price and are likely to go higher with the poor crop prospect.

Mr. and Mrs. S. B. Card and family, accompanied by Stewart's father Will Card, returned from their motor trip Thursday afternoon, having covered near 3,000 miles while away. They report a lovely time and an enjoyable visit with relatives and friends while away.

Advertising rates on application

ARE WE WILLING TO GIVE IT A TRY

Possibly before another paper goes to press, there will have been an issue of Prosperity Certificates paid out to the real crews at present working in the district. These men are being paid to pay their bills and to pay for their keep with these Certificates, and expect business houses to absorb them.

As business men of the Town what attitude are you going to take respecting this medium of exchange? True, everyone would rather have cash. But isn't more of the Certificates better than no cash providing they will pay for goods and services and keep business going and goods moving? So long as wages are being paid by retailer, wholesalers and manufacturers a certain amount of Certificates could be handled, so long as they will buy groceries, coal, clothes, etc.

This is not a plan for Social Credit, but it is a plan for co-operation on the part of every citizen and every business man to give the Certificates a good fair trial before condemning them. Go out to one of the road projects and see the men working there. 5 out of each 6 on the job are men who without this project would be on relief this coming winter, and tell us where the Municipality or town would find the money to feed and clothe these people with. Take a look at the crops in the district, and then decide whether farmers are going to be

able to care for their families and pay taxes with the proceeds of the crop. If they can't how are we going to operate our schools and continue the other public services that we are accustomed to and that must be carried on.

That there will be problems in connection with the turnover of the Certificates is a foregone conclusion. But the Province has made certain commitments in respect to them & we can at least ask the Province to carry these out. Many shy at the 1% tax and the fact that the Certificates will be self-redeeming in 2 years. It looks like a question of additional business with a small increase in overhead, or dragging along with painfully small returns, and overhead just about where it would be in good times.

We would like CASH. So would you. But, if the present plan will enable people to pay their bills to be self-sustaining and enjoy the comforts of life, is it not our business and responsibility, so long as the plan is endorsed and initiated by the Government, to our choice, to at least unite in giving it a fair trial.

SOME SUGGESTIONS FOR THE CONTROL OF CHEAT GRASS

(By Wesley Smith)

Cheat Grass, also called Downy Brome, is invading Alberta. It threatens to become a serious menace unless control measures are started at an early date.

Being an annual, Cheat Grass propagates from seed. Control measures should aim to destroy the seed, or to prevent the formation of seed. The seed will soon be ripe. Patches of the weed should be burnt as soon as they are fit to burn, and be fore the seeds scatter.

Cheat grass is very inflammable. Exercise extreme care to KEEP CHEAT GRASS FIRES UNDER CONTROL. Do not at-

tempt to burn too much at a time.

Frequently Cheat Grass will be found in Alfalfa. Lightly infested fields should be cultivated early in the spring with a spring-tooth harrow or some similar implement. Heavily infested Alfalfa should be plowed and the weed brought under control by cultivation.

Cheat Grass is also a winter annual and may give trouble in fields of winter wheat. The substitution of spring grains for winter wheat has sometimes helped in controlling Cheat Grass.

Cheat Grass is a tufted or bunch grass which grows to a height of from six to twenty four inches. Under dry conditions it produces seed when only a few inches high. The plant is covered with fine hairs, appears somewhat slender and turns to a reddish purple colour at maturity. The drooping panicle resembles that of side oats.

The habitat of Cheat Grass is waste places. The plant comes in after other vegetation has been destroyed. Overgrazing, excessive trampling and winter killing reduce the stand of the natural vegetative cover. The bare spots (waste places) appear on which Cheat Grass and other weeds become established. The handling of grass lands to strengthen the stand of desirable grasses will do much towards checking the encroachment of Cheat Grass.

The situations where Cheat Grass is found are highways, towns, railway yards and right of way, along fences, along the edges of crops, hay meadows with thin stands, small grain fields, abandoned crop land, native ranges or grass lands, farm yards and windbreaks.

Note: Where grass fires are set farmers should conform to the provisions of The Prairie Fires Act and its regulations, which requires the securing of a permit. Where burning is to take place within a Municipality application should be made to the Municipal Council or the Municipal Fire Guardian. In the case of Improvement Districts, FireGuardians or the R.C.M.P. are authorized to issue permits.

DID YOU EVER

STOP TO THINK

(By Edson R. Waite)

Real citizens put principles before money.

Real citizens always get behind definite plans for community betterment.

Real citizens do not use grand stand methods, but fulfill their duty to the home community by dutifully and consistently pounding away.

Real citizens inspire progress. They always stand by the home city. Every citizen should stand by them.

Real citizens are the guardians and defenders of the home city.

Real citizens are the pioneers in every advance movement.

Real citizens are defenders of law and order.

REAL CITIZENS ARE THE LIFE OF PROGRESS.

NEWS NOTES

Donny Nilsson has recently purchased a new Diamond T Truck.

Tuesday morning was fairly cool, but it had arrived at the hot point before noon and the sun was shining unveiled all day long.

Local riders were in the lists at Lethbridge this week, and Clark Lund was in the top in several events.

A pretty close check is being made on weeds now. If you want to keep on good terms with Ed. Hawk, better get the weeds destroyed NOW.

Mrs. Jas. Still spent two or three days the first of the week in the Lethbridge Hospital under the Doctor's care. She is getting along nicely now.

Two buses were in town Monday Tuesday and Wednesday taking people to the Lethbridge Fair and Stampede. Quite a number visited there one day or the other.

Dr. and Mrs. F. M. Hall returned Sunday evening from a ten day motor trip to Washington, Oregon and Montana. They rather disliked coming back to the searing heat of the Great Plains.

If we could only store this heat we are having now for use in the winter it wouldn't make us nearly so "disgustified." It's like our flood waters in the spring, it all goes to waste.

Mr. and Mrs. Chas. Porter of Medicine Hat, spent Friday night in Raymond with their son Warren and wife, on their way to Vancouver and other coast points for a holiday and motor trip.

Friday night's Herald carried the announcement of the engagement of Miss Lillian Coyle and S. Boothe Card, well known young people of Raymond. The wedding will take place in August.

Stake Quarterly Conference will be August 19, and 20 and possibly 21st, with Elder Melvin J. Ballard in attendance. If three meetings are held there will likely be one in Magrath, one in Raymond and one in Welling, when their Ward Chapel will be dedicated according to Pres. T. Geo. Wood.

On Monday two shifts were started on this end of the Stirling-Raymond road. The first shift starts at 4 a. m. and works to 8 then shift no. 2 works till 12. The first crew comes back on again until 4 and then shift no. 2 goes on again until 8 p. m. This is done in an effort to put more men and teams to work, so that they will be able to take care of themselves now and lay up something for the winter months. The same practice is carried on at the other end of the road.

NEWS NOTES

Gordon Brewerton of Cardston was a Raymond visitor Wednesday.

Mr. and Mrs. O. H. Snow are spending the present week in Waterton Park on their holiday.

Quite a number of Raymond people attended the Lethbridge Exhibition and Stampede the first part of the week.

The first contingent of Bee Hive Girls are leaving for camp Saturday at noon. Any failing to register and desiring to go yet should get in touch with Mrs. H. Witbeck.

Mrs. Bert Nilsson was the lucky winner of the beautiful Afghan and Cushion given away by the Women's Institute and drawn for at the Capito Theatre last Monday night.

Leatrice Scoville and Sidney Romeril have returned this week from attending the Short Course at the Olds School of Agriculture. They were awarded this extra scholarship for winning the most prizes in the School Fair.

Mr. and Mrs. Ray Powell former residents of Raymond now living in Utah, are visiting in Raymond with friends and relatives, and were speakers at the Second Ward Sacrament meeting Sunday evening.

Born to Mr. and Mrs. Lyman H. Jacobs at St. Michael's Hospital, Lethbridge, Wednesday, July 22, a baby girl. Mother and babe are doing fine. Incidentally this was Mr. and Mrs. Jacobs' first wedding anniversary and they certainly received a fine present. No wonder Lyman was smiling from ear to ear.

Stake Pres. T. Geo. Wood and Emil Weed, a member of the High Council were the speakers at the Second Ward Sacrament meeting Sunday evening. Both gave very interesting talks although they had an unusually small audience, very probably due to the funeral services of James E. Fisher which occupied most of the afternoon.

EXPERIMENTAL STATION LETHBRIDGE

WEEKLY LETTER

WINTER WHEAT

The time of year has arrived when farmers who are planning to seed winter wheat will be giving some thought to this crop. The acreage devoted to winter wheat has increased considerably in recent years, and from inquiries received, it appears that the acreage seeded to winter wheat this fall will exceed that of last fall to a considerable extent.

In the early years of this Station's operations, an experiment was conducted to determine the best date for seeding winter wheat. From the results obtained, we recommend seeding as close to the First of September as possible. Many farmers have been in the habit of seeding much earlier than this date, and in certain seasons Root Rot has caused considerable damage. In the same seasons, this disease was found to be prevalent in Montana and other western states. Investigations in Montana to determine the cause of this disease, indicated that it was much more prevalent where early seeding was practiced, but that the fields seeded from September 1st on seemed to escape damage from this disease.

The real reason for this letter is to caution farmers not to sow their winter wheat earlier than September 1st, owing to the fact that wheat seeded the first week in September will not make a great deal of growth it will not control soil drifting as much as would be desired, but it is thought by some to provide a little protection. The practice of seeding winter wheat in stubble is perhaps still in the experimental stage, although the results obtained for the last half dozen years have been

somewhat promising.

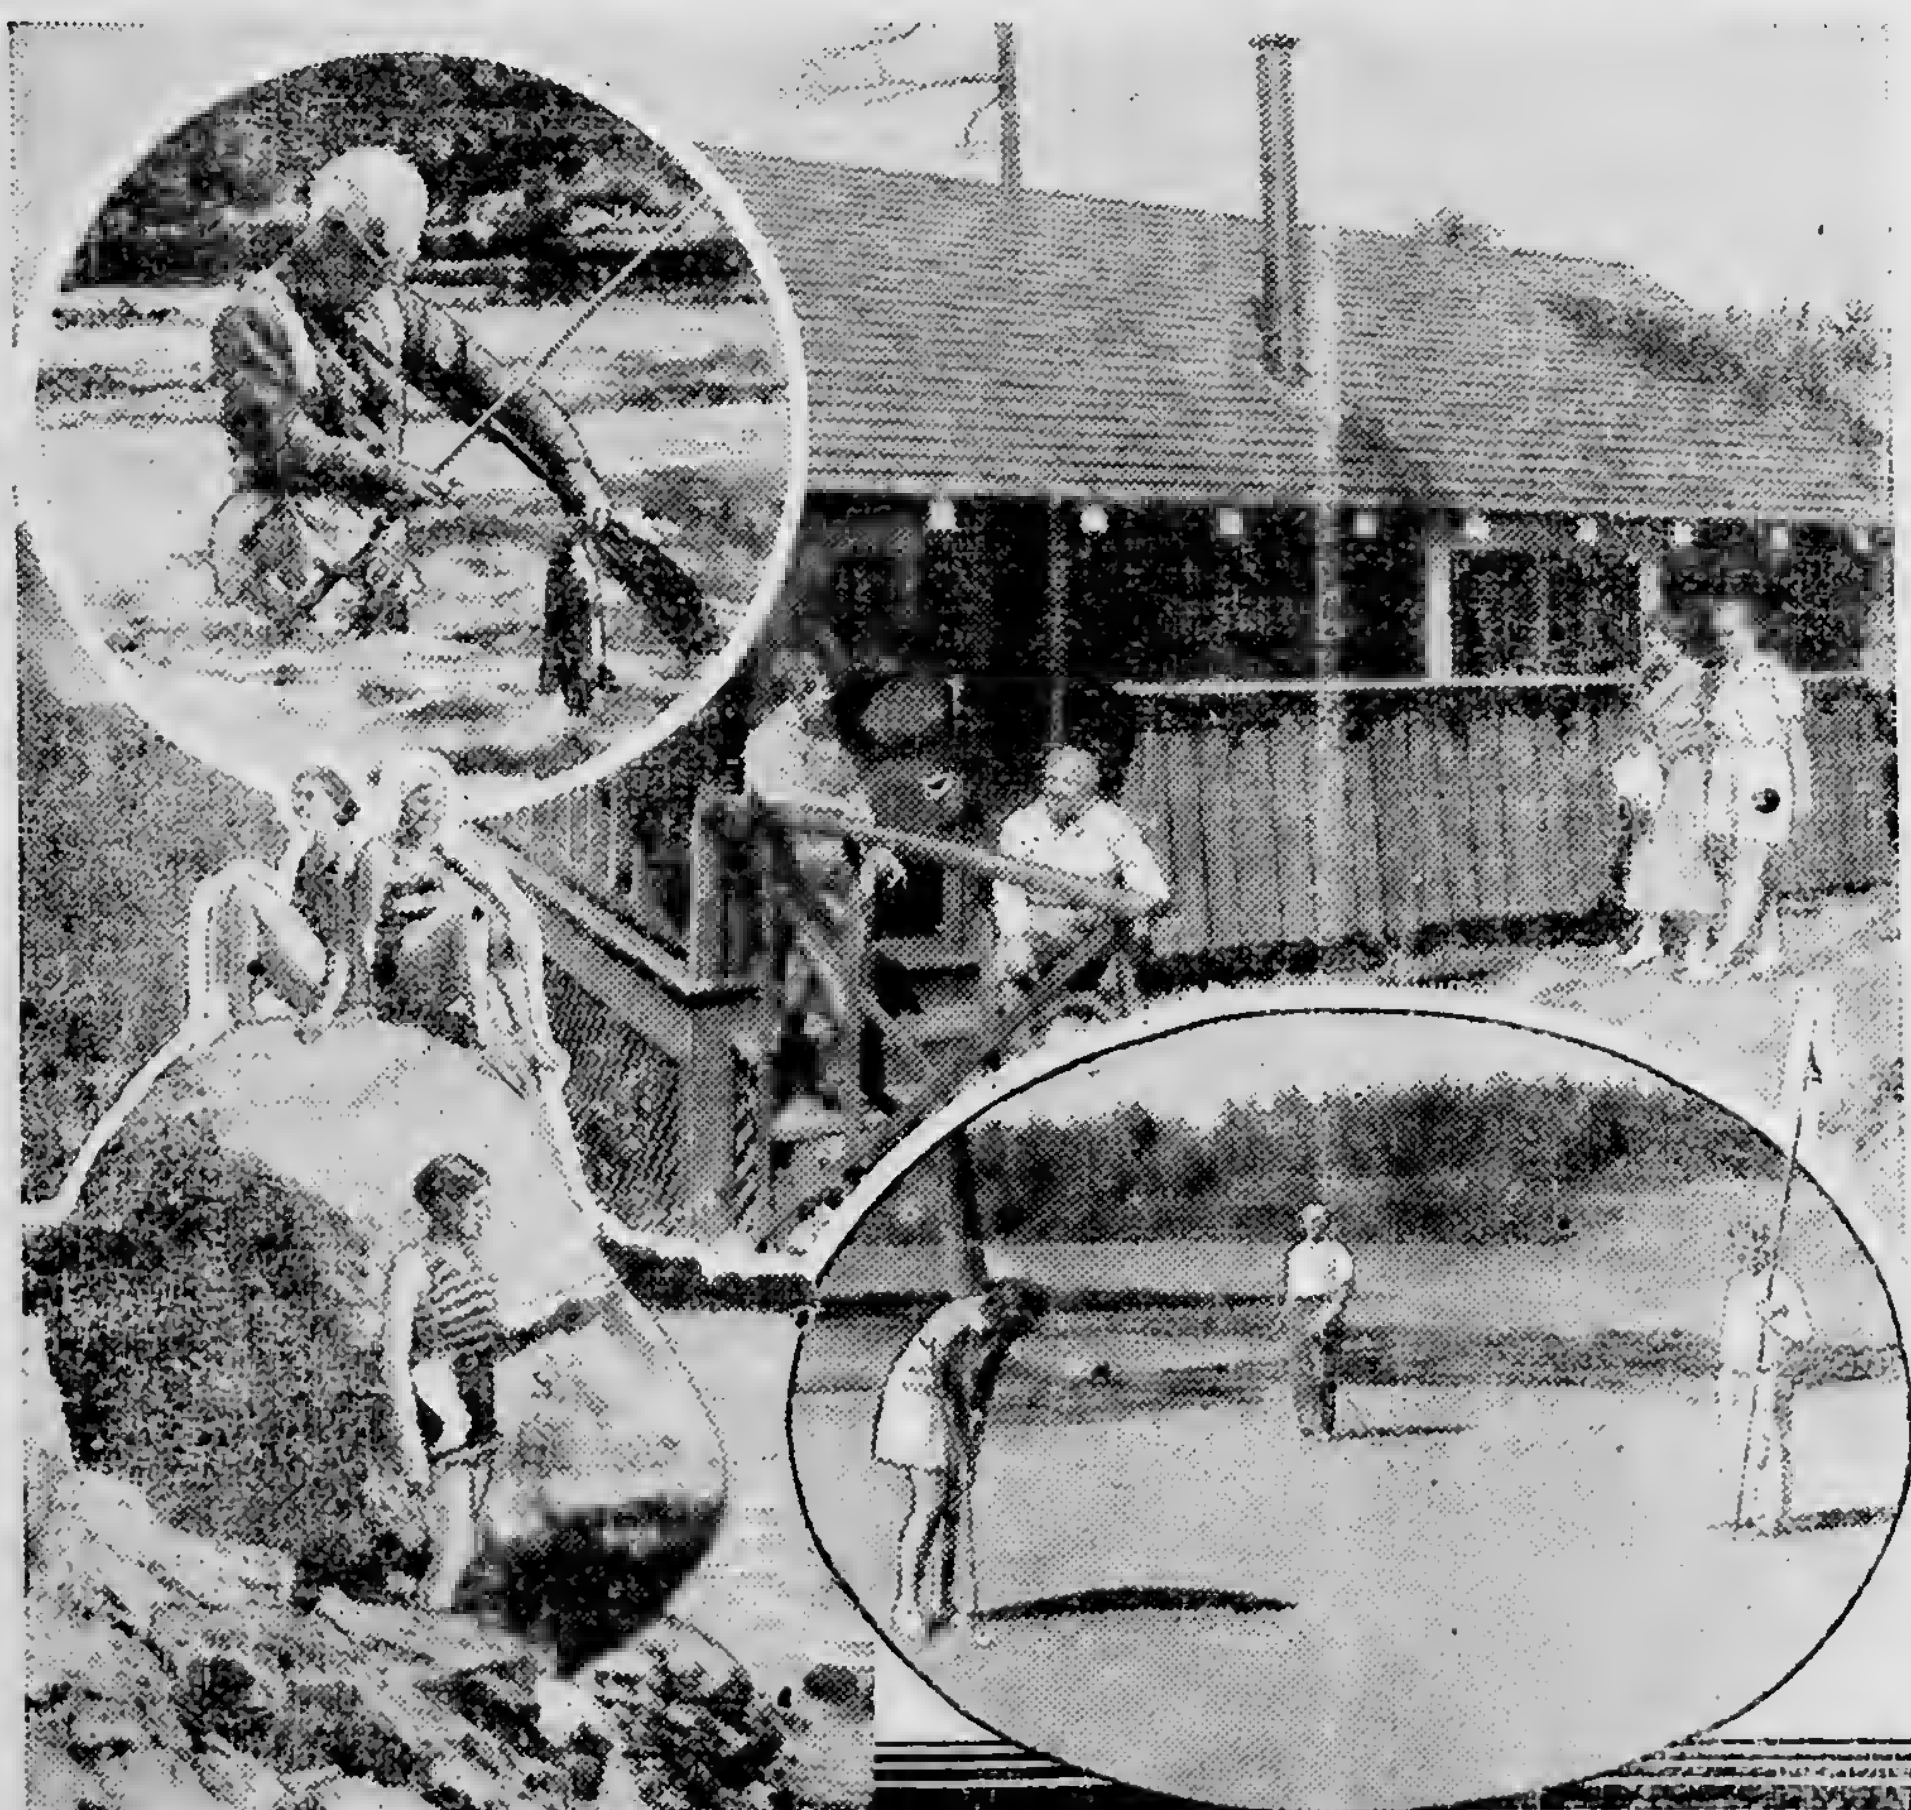

An experiment has also been conducted to determine the best rate of seeding, and our results seem to indicate that one bushel per acre is the best rate to recommend for summer-fallowed land.

The variety in common use throughout the district is Kharkov, and at present there is no variety under test at the Station which we would recommend in preference to Kharkov. A strain of this variety, known as Kharkov M.C. 22, was introduced to the district a few years ago, and has been giving good results. It is a strain which originated at MacDonald College at Quebec, and was selected as the best of a number of strains tested, on account of its winter hardiness and yielding capacity.

An examination of the yields obtained from winter wheat and from spring wheat on summer-fallowed land in different rotation at the Station where a proper comparison for these two crops can be drawn, show that the average yields of these two crops have been fairly close. Results obtained at the Station over a period of the past 23 years, show that winter wheat has out-yielded spring wheat to a slight extent, the average yield of winter wheat being 27.31 bushels per acre, and that of spring wheat, 25.92 per acre. These crops were grown on summer-fallowed land in both cases. During the 23 year period, the winter wheat plot killed out completely in only one season. The plot was seeded to spring wheat the following spring.

The weather over the week end was dry and warm. The evenings were fairly pleasant after sundown, but the afternoons particularly were very hot and sultry.

Where City Dwellers Enjoy Holidays

Up in Northwestern Ontario where the game fish grow large and put up a spirited battle, the Canadian Pacific Railway has well equipped chalet-bungalow camps at Devil's Gap, near Kenora, and at French River for the accommodation of fishing enthusiasts from all over the continent. Arrangements can be made, too, to take care of visitors to Nipigon River, another famous resort for game fishermen.

Year by year these favored spots, unspoiled by the civilization from which they are separated by a few short hours of train travel, attract more and more visitors. The camps offer a happy combination of the joys of the great out-of-doors and the com-

forts of the city. At the Devil's Gap and French River Camps, the cabins are lighted electrically, cosily furnished, and have running water. Many of them have shower baths and all have screened verandahs. Efficient maid service is maintained.

Although fishing is the main attraction at the Devil's Gap Bungalow Camp, just a pleasant boat ride's distance from Kenora, other amusements are swimming right at the camp dock, a nine-hole golf course within easy walking distance, and organized excursions by motor boat or canoe over the great stretch of water. The camp will be open this year from June 26 to September 11. A special attraction this year will be the

Old Home Week which will be staged by Kenora from July 6 to the 11th.

The French River Camp provides especially good fishing and golfing. Fighting "muskie," great northern pike, large and small mouth bass, "wall eyes" and other game fish are found in abundance. A few years ago a 55-pound "muskie" was taken there and many heavy fish are brought in each season. A picturesque nine-hole golf course is situated on Dry Pine Bay, and there is tennis, swimming, a sandy beach, and dancing at night. The surrounding country provides delightful hiking and canoe trips. The camp will open on June 29 and close on September 20.

Second cutting of alfalfa is Mr. and Mrs. Ross May of going into the stack this week Medicine Hat, Alberta, visited and quite a few fields of grain for awhile Sunday evening with are being cut for hay while Mr. and Mrs. S. I. May and fam there is still something to cut. ily.

Governor General Expert Guide

Lord and Lady Tweedsmuir spent much time on deck as the Canadian Pacific SS. Duchess of Richmond steamed up the St. Lawrence. In the above picture Canada's new Governor-General, who is a distinguished historian as well as a successful writer of romantic adventure stories, pointed out historic landmarks of Canada's Ancient Capital to Lady Tweedsmuir and his son, the Hon. Alexander Buchanan, as the liner neared Quebec.

**A Great Subscription Bargain that
SAVES YOU MONEY**
and gives you year-long enjoyment

Here is a real offer that will save you money... Give yourself and your family lasting enjoyment and entertainment the whole year through... This is all you have to do.

Select any 3 of these famous Magazines
Together with your local newspaper

and you will receive the whole 4 publications for one year from the date we receive the coupon. Here is the amazing combination low price.

\$3.00

Our Guarantee to You!

This wonderful offer is available to old and new subscribers to this newspaper. We guarantee the fulfillment of all magazine subscriptions and you have positive assurance that this generous offer is exactly as represented. Renewals will be extended for full term shown.

WANT ADS.

FOR SALE — Excellent Ice Refrigerator. See L. Brandley.

FOUND — An automobile pump. Can be had at Recorder Office by paying for this ad.

WANTED TO RENT—Three or four roomed house or apartment, unfurnished, for the winter, commencing September 1st. For particulars inquire at Recorder Office.

NEWS NOTES

DID YOU EVER STOP TO THINK

Edson R. Waite
Shawnee, Oklahoma

Success, as a rule, does not come as a result of any particular brilliance or from some outstanding accomplishment which may never be followed by others but from a careful and continuous building along a definite line.

There would be no home industries if people purchased all their supplies from outside sources.

Now is the time that every effort should be made to improve business— not retard it.

Ancient nations imagined that because they were prosperous and invincible in a military sense they were superior to all other persons on earth and there was no power that could dislodge them from their high estate, but they succumbed to implicit confidence in their strength without the essential virtues.

"Newspaper advertising today has become a great power and by its help many fortunes have been made. The power of newspaper advertising is very great" so says James E. Barrett, managing director of the Oklahoma Biltmore Hotel.

Some politicians make a lot of noise, but few accomplishments.

It is this newspaper that keeps the civic spirit of your city alive. What would your city be without it?

LEE REUNION HELD IN CARDSTON

The Annual Family Reunion of the Lee Families of Raymond and Cardston was held at Cardston on Lee's Creek, on Sunday, July 19, at which there were 66 members of the family present.

The purpose of the yearly reunion, other than a social function, is to foster and promote Temple work for the Lee progenitors.

A very fine program was enjoyed, after which the genealogical business was discussed and the new officers for the year chosen. A delightful picnic lunch was then served, after which swimming, soft ball, etc were enjoyed.

Mr. and Mrs. Wyllis Johnson and Mr. and Mrs. LeRoy Johnson of Thistle, Utah were present. Mrs. Wyllis Johnson is a sister of Mrs. Marion Palmer, Mr. Owen Lee, and Mrs. Kate Smith of Raymond.

HEALTH

A HEALTH SERVICE OF THE CANADIAN MEDICAL ASSOCIATION AND LIFE INSURANCE COMPANIES IN CANADA

THAT ENLARGED HEART

Many people have the wrong idea about an enlarged heart. Of course it must always be taken seriously, but sometimes it is interpreted the wrong way.

First of all the heart may be enlarged in either of two ways it may actually be thickened, like the wrestler's arm, or it may just be overstretched with out thickening of the muscular wall. This latter is called "dilatation" and is often due to sudden overstrain.

The form with actual muscular thickening may be due to constant effort over a period of months, as for instance in a well-trained marathon runner, but it is more often due to some valvular leakage in the heart.

This may have resulted from old infection back in childhood. It may have been due to infection getting into the valve edges during an attack of rheumatic fever or perhaps from chronically infected tonsils. The actual infection in the valves & heart muscle may have long since been healed, leaving only the scars on the valves.

Now the body requires that so much blood be pumped per minute. If there is an appreciable back leakage, obviously the heart must pump the required amount plus the amount leaking back. That means more work, which will produce a thickened muscle in time.

This explains why the actual thickening of the heart wall may be a life saver. Without it we could not carry on an active life; with it many a person with damaged valves can live practically a normal life, except, of course, that the ordinary strains of life, lifting heavy objects, running for street cars, cranking the car etc. must be avoided.

This explains too why the heart tends to enlarge with high blood pressure. There may be no leak, but a higher pressure may be required in the force pump to overcome resistance somewhere in the blood circuit.

Of course if the heart be dilated only, or if there be dilatation on top of thickening, and a careful examination by your physician can ascertain this the utmost care must be taken until the dilatation be corrected.

Because of the efforts of the heart muscle to "compensate" for these extra demands there is a tendency to abuse this protection. Remember that the muscle is always overtaxed and have it checked from time to time. Frequent short rest periods under your doctor's direction will often enable people with "hearts" to far outlive their more active associates.

Questions concerning health, addressed to the Canadian Medical Association, 184 College St. Toronto, will be answered personally by letter.

NEWS NOTES

A. H. Zabriskie was in Calgary the first of the week selecting the furniture and fittings for the new Sugar Factory offices in Picture Butte. He returned home Monday evening.

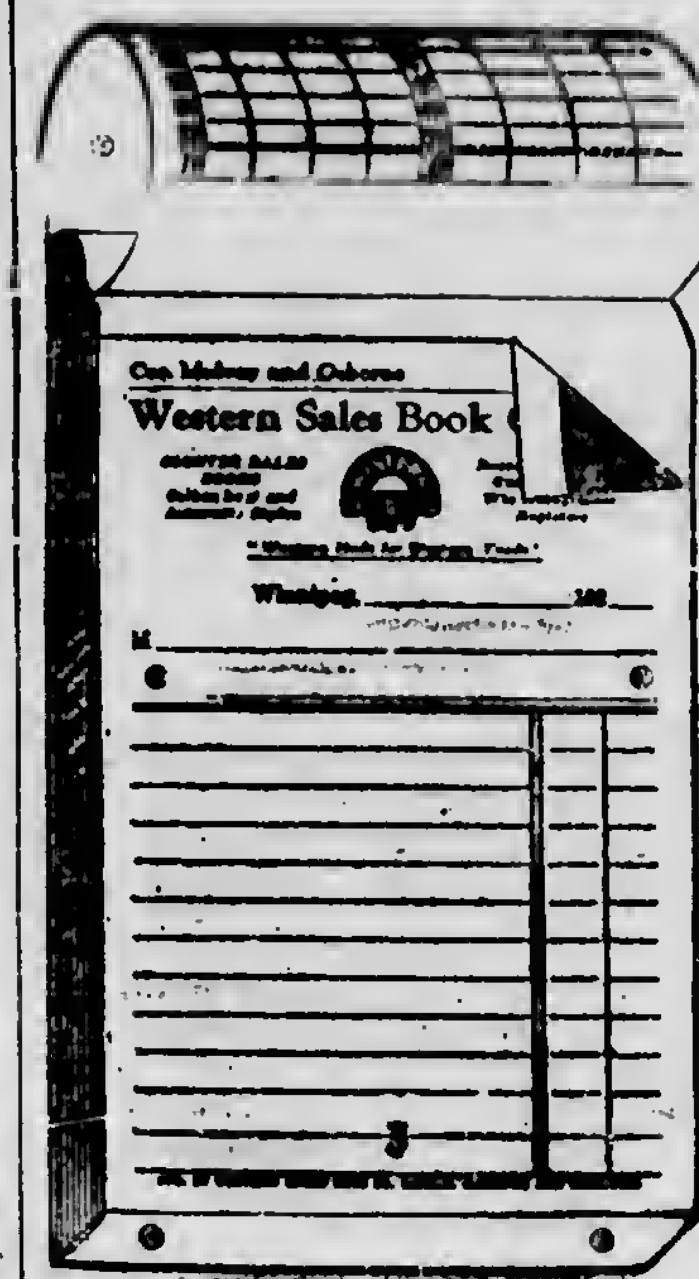

Hon. W. N. Chant, H. A. Craig and O. S. Longman, all of the Department of Agriculture of the Province were in the district Saturday, and discussed road and water conservation problems with Solon Low local member.

It is reported that road workers will receive a payment in Prosperity Certificates this week end. Can and will they be handled?

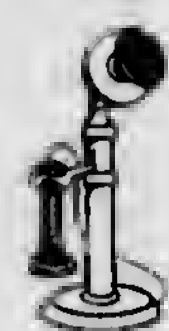

Work on the new road from Raymond to Stirling was temporarily suspended Thursday. The allotment for the Constituency was nearly used up, and the local member thought he had better hold things up until another appropriation was guaranteed. As much of the road as is completed is a distinct credit to the project.
